WeARE

A mexican company with more than 55 years of experience serving the HVACR industry with high quality products.

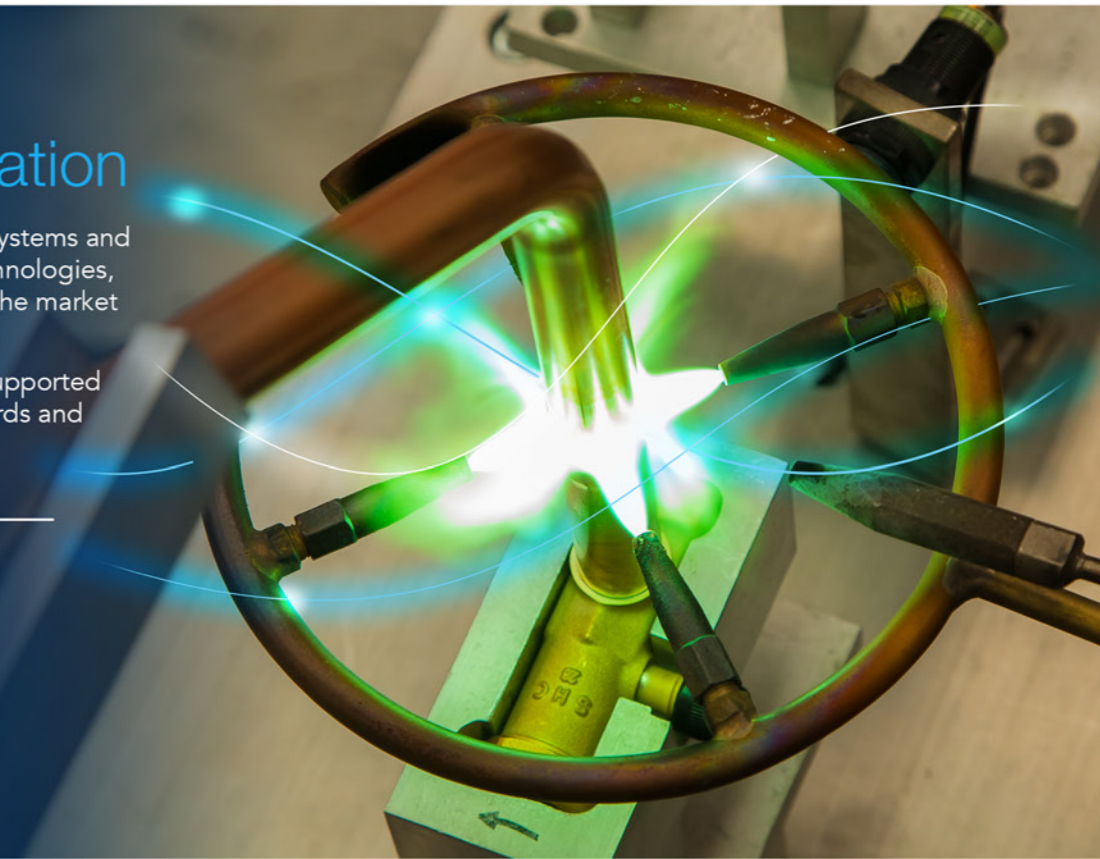

MESA manufactures copper and aluminum, components and assemblies for the air conditioning and refrigeration market while remaining integrated into the value chain of our customers and offering the best quality and service.

Quality and Innovation

By valuing a sense of innovation in the systems and processes of applied manufacturing technologies, MESA maintains a competitive edge in the market while exceeding customer expectations.

Our commitment to product quality is supported by compliance with international standards and national / international certifications.

We always strive to be the best business partner for our customers.

Our Products

Copper tube assemblies

Copper and aluminum parts and assemblies for residential and commercial products.

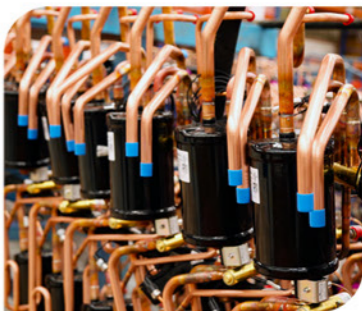

Aluminum tube assemblies

Our operation includes the transformation of aluminum tubes as a high-quality solution for specialized industries such as Air Conditioning and Automotive.

Integrated assemblies

MESA produces finished assemblies, made with copper tubing and purchase components such as accumulators, filters, valves, sensors, switches, among others.

Let's make your vision happen

Let's work together
on your next project.
